

Our mission: To improve employment opportunities through the delivery of high quality, high impact skills training, coupled with a strategy to move every learner to a better destination

BEST PRACTICE PEOPLE

BEST PRACTICE PEOPLE

GreenStart

Providing a platform for entry in the world of good green jobs

Here at Best Practice People, we believe that wanting to pursue a career within the green economy begins with an understanding of how our behaviours are impacting the environment, and what can be done to prevent it.

Our GreenStart™ Training Programme consists of four important qualifications, that not only provide green skills to unemployed and low skilled workers, but also significantly improve their job application across the green economy.

We could tell you much more but want to stay on one sheet of paper to avoid contradicting ourselves.

Fully Funded through Adult Education Budget or DWP Baseware
